BRILLIANT!!!!To quote Lesley Jones: "This book grew and evolved into something that not all of you are going to love, I'm pretty sure, in fact, that some of you are going to hate it, but, I stuck to the story that the characters wanted me to tell. I tried to change it, but it just didn't work. Sarah and Liam's story covers a lot of emotive subjects, but that's their story. I didn't change it, I didn't sugar coat it, I just told it the way they wanted me to. This is just a story about an everyday couple, doing everyday things. It's about life and how easy it is to take it, and those around you for granted.I stand by this book and the words and characters contained in it. It was extremely hard to write and I probably could have done it differently, made you all happy and saved myself a s\*\*\* ton of 1 star reviews... but, those that have read my previous words, know that I like to keep it real and that's what I've done with Fading. "How true Lesley Jones was to those words. I loudly applaud her decision to write the book as it was told to her by her characters. This book was enthralling from beginning to end. It ripped apart my heart and made my tear up and cry on so many occasions that I thought I was going to be a blubbering mess all the way through. I was so angry at times, that I wanted to put the book down and walk away, but couldn't, I simply wanted to continue reading this magnificent story.Liam and Sarah won me over in their first book, Spiralling Skywards: Falling and they continued to do so all the way through this one. As with the original story, this one too was full of laughs, friendship, tears, passion and love - but Ms Jones through something else in there this time - she gave the reader, normality, honesty and typical day to day dilemmas. By this I mean nothing in life is a 'bed of roses' and that has been made by the trials and tribulations that this couple face during this second book.Sarah, who was never a person with a large amount of self-confidence, struggles even further in this area. Floundering under life's normal struggles, Sarah begins to question her value to her family, it is heartbreaking watching the turmoils that she endures. Even though she is still madly in love with Liam, she feels abandoned by him, due to his constant work commitments. Liam is struggling to be the man he wants to be, he has to travel for the business that he and Luke are still trying to establish. He loves Sarah with all of his heart, but sometimes he just isn't able to show it as much as he wants to. There is subject matter in Sarah and Liam's story that many people will relate to, but there will also be those who will not. There are triggers in their story, but the way in which Lesley deals with these triggers is beautiful, she makes them real and allows the reader to feel the emotion of the person experiencing the events involved.Once again Ms Jones has

taken me on an emotional journey that I will never forget. She has enabled to escape the realities of life and move into the realities of her character's lives. Once again she has not let me down. I do not hate this book, as she feared many would, in fact I am at the other end of the spectrum.....I LOVE THIS BOOK, but I must admit I was totally drained of all emotion once I had finished reading it. That is nothing unusual for a book by Lesley. Absolutely FIVE STARS from this addicted fan. 2 of 2 people found the following review helpful. Outstanding from beginning to end! 5 huge stars. By mjlovestoread My breath has truly been stolen from me. Spiralling Skywards: Fading is simply Lesley Jones's most powerful book to date. I could not put it down, even as I cried and I commiserated 100 percent with Sarah. The author's words kept me captive and I'm still reeling. This continuation of the whirlwind romance and marriage between Sarah and Liam, her Aussie hottie did a complete 180 from book one. Although still told in alternating POV's this one is Sarah's story through and through. The author takes a very serious subject matter and gives it a voice that not only strongly resonated with me as a Mom but will for others who have felt overwhelmed and distraught when it comes to raising a family. My heart broke for her many times over. I felt Sarah's despair and it brought up my own painful memories when my kids were young. But despite all the mixed signals, the hard feelings and the lack of communication, there is still the greatest amount of love between Sarah and Liam. That never wavers even when Sarah is at her lowest. Combined with the passion that never quite loses its spark, it is truly what sees them through time and again. This was an extremely emotional read for me and I welcomed the occasional dose of humor from Sarah and Liam, along with her brother Luke, the feisty Nan and Archie and Sarah's bestie Sasha. It's a great crew of characters and added just the right touch. I honestly can't recommend this duet highly enough with this latest one in a league of its own. It's brilliant. 5 stars! 0 of 0 people found the following review helpful. You Need To Read This Book!!!!!! By NTM The is the sequel to Spiralling Skyward Falling. Reading the first book in the series, I feel is required before reading Fading. Sarah marries Liam with a beautiful wedding, but before they can depart on their honeymoon disaster strikes and takes Liam away on business. Liam is gone for weeks and Sarah is lonely, definitely not the best way to start a marriage. Sarah and Liam's marriage is tested with curve balls, fast balls, and siders! Every once in awhile a book GRABS you in it's vise and won't let you go. You just can't read it fast enough, but when you are finished, you are sad, and left with a huge book hangover. Fading is that book. I read the whole thing in one day, because I couldn't put it down! You Need to read this book!!!

From the outside looking in, Sarah and Liam's bond has been unbreakable since the moment they first laid eyes on each other. Love, romance, and friendship should form the ropes that tether them together. But when old insecurities rise to the surface, Sarah loses sight of her self-worth and feels her identity fading. Faced with a choice that threatens to fray those ties, she finally begins to unravel. Until one day, those ropes snap, that bond is broken, and their relationship sent spiralling off course.
